

Here All Along

Joy Davis © 2003 www.joydavissongs.com

I got lost on a journey
I hung a right down his lane,
He was look'n so safe and comfy
Thought sure he'd hide my pain.
"Its a lonely road, come join me"
He turned and walked away
A wise man knows his own path is a holy place to stay.

Chorus:

It was here all along (I am for you)
It will never change (I am with you)
It's like a mother's love (Darling for you)
One can never estrange (Darling with you)
It was here all along
Right from the start (repeat echo)
As soon as the next breathe
As near as your heart

Verse 2:

I built an empire on the sand,
A tribute to all I'd done
A thousand doings later
Satisfaction has yet to come.
So I went to see the wizard
To ask how to stop this ache
This gnawing growing hunger
That follows every step I take.

Chorus:

It was here all along (I am for you)
It will never change (I am with you)
It's like a mother's love (Darling for you)
One can never estrange (Darling with you)
It was here all along
Right from the start (repeat echo)
As soon as the next breathe
As near as your heart

Verse 3:

What doctrine should I follow?
What potion should I drink?
He said " the answers you are seeking are inside each thought you think."

Repeat Chorus

Tag:

And though it might appear to fade
It's me who moved away
After all the doors have been opened
It was here all along.
