### Verse 1:

Angels walk among us every instant  
Miracles unfold in every flower  
All of us possess the spirits power to change a life,  
To heal the sick, to be a light in someone's darkest hour!

### Chorus:

You heal me  
You heal me  
You reached inside and shook that place  
That lets my light shine free  
You heal me

### Verse 2:

Sometimes it seems like I just wanna hang in the bad times  
I'm stuck in a rut, surrounded by my pain  
Then comes along a ray of sun so blindingly beautiful  
It lifts me up and I can start again

### Chorus:

You heal me  
You heal me  
You reached inside and shook that place  
That lets my light shine free  
You heal me

### Verse 3:

There I stood a prisoner of my memories.  
Ideas that won't help me on life's climb  
In walked love to prove its generosity  
And spoke to me the message that our nature is divine

### Chorus:

You touch me  
You touch me  
Something that's uniquely yours  
Enlightens all I see  
You touch me.
